The oven must be placed on a flat, stable surface. Place the front surface of the door three inches or more from the counter top edge to avoid accidental tipping of the microwave oven during normal use. For proper operation, the oven must have sufficient air flow. Allow 3Cinches 7.6 cm of space on both sides of the oven and 1Cinch 2.5 cm of space on top of the oven. <http://www.sns-russia.ru/userfiles/commercial-load-calculation-manual-n.xml>

- **bosch hmb5050 manual, bosch hmb5050 01 manual, bosch hmb5050 manual, bosch hmb5050 manual, bosch hmb5050 01 service manual.**

D Do not block air vents. If they are blocked during operation, the oven may be overheated and damaged. D Do not place oven near a hot, damp surface such as a gas or electric range, or dishwasher. D Do not operate oven when room humidity is excessive. 2. This oven is manufactured for household use only. If they are blocked during operation, the oven may overheat. If the oven overheats, a thermal safety device will turn the oven off. The oven will remain inoperable until it has cooled. 2. If the oven is to be installed into a wall cabinet by use the proper trim kit available from a local dealer found on page 37. Follow all instruction packed with the kit. WARNINGA Improper use of the grounding plug can result in a risk of electric shock. Consult a qualified electrician or service person if the grounding instructions are not completely understood, or if doubt exists as to whether the appliance is properly grounded. If it is necessary to use an extension cord, use only a three wire extension cord that has a three prong polarized grounding plug, and a three slot receptacle that will accept the plug on the appliance. The marked rating of the extension cord should be equal to or greater than the electrical rating of the appliance. This appliance must be grounded. In the event of an electrical short circuit, grounding reduces the risk of electric shock by providing an escape wire for the electric current. This appliance is equipped with a cord having a grounding wire with a grounding plug. The plug must be plugged into an outlet that is properly installed and grounded. D Plug into properly installed and grounded 3 prong outlet. D Do not remove ground prong. D Do not use an adapter. Fours micro ondas Horno de MicroondasThe Service section includes troubleshooting tips and your warranty. Before using your appliance, be sure to read this manual.

Pay special attention to the Important Safety Instructions located at the beginning of the manual. <http://funperm.ru/content/commercial-lines-manual.xml>

Read all instructions before using the appliance. This appliance should be serviced only by qualified service personnel. To reduce the risk of fire in the oven cavity. D D D D risk of shock Repairs must be done only by a qualified service person. To avoid the risk of fire 1. Do not operate the oven when you press Start. Note The Glass Tray can turn in either direction. 3. Use only the Glass Tray specifically designed for this oven. WARNING Improper use of the grounding plug can result in a risk of electric shock. Where installed and used properly, in strict accordance with the manufacturers instructions, it may cause interference to radio and television reception. Never leave oven unattended when popping popcorn. CAUTION When using pre packaged microwave popcorn, follow recommended package instructions. Check package weight before using the popcorn pad. Set the oven for the weight of the popcorn package. Use potholders when removing utensils and Glass Tray from the oven or when removing lids or plastic wrap covers from cooking utensils to avoid burns. The Glass Tray will get hot during cooking. During cooking One tap temporarily stops the cooking process. Another tap cancels all your instructions and time or colon appears in the Display Window. Start Pad One tap allows oven to begin functioning. Do not substitute any other Glass Tray. 3. If no beep is heard, the unit did not or cannot accept the instruction. When operating, the oven will beep twice between programmed stages. Starting to Use Your Oven. Plug In Plug into a properly grounded electrical outlet. Setting the clock. Example To set 1125 a.m. or p.m. 1. Press Clock pad once. Colon flashes. 2. Enter time of day e.g. 1125 using the number pads. For other power levels, the maximum time is 99 minutes and 99 seconds. For reheating, use P10 HIGH is listed in Sensor Cook Chart, please cook by manual cooking see above. CAUTION If oven lamp is lit while using the timer feature, the oven is incorrectly programmed.

Stop oven immediately and re read instructions. The time in the display window will count down. Note This does not affect the popcorn results. This feature allows you to defrost foods such as meat, poultry and seafood simply by entering the weight. Follow the chart to convert ounces or hundredths of a pound into tenths of a pound. To use Quick Defrost, enter the weight of the food in lbs. 1.0 and tenths of a lb. After reheating, let stand for a few minutes. Plate of food Do not use Auto Reheat. To reheat bread and pastry products. Use manual power and time for these foods. For raw or uncooked foods. If oven cavity is warm. For beverages. For frozen foods. Remove facing away from you to avoid steam burns. If additional time is needed, continue to cook manually. Follow manufacturers directions for preparation. Dinner. Bone and Fat Both bone and fat affect cooking. Bones may cause irregular cooking. Meat next to the tips of bones may overcook while meat positioned under a large bone, such as a ham bone, may be undercooked. Thin areas of meat and poultry cook more quickly than meaty portions. To prevent overcooking, these thin areas can be shielded with strips of aluminium foil. Wooden toothpicks may be used to hold the foil in place. CAUTION is to be exercised when using foil. Cookware Guide. Item Aluminium Foil Microwave yes for shielding only yes Comments Small strips are designed for microwave cooking only. Since then, Bosch has grown into a global leader through its dedication to innovation and quality engineering. Bosch is one of the companies with the most patent applications worldwide. Today, Bosch operates in almost 50 countries on every continent through subsidiaries and associated companies. All around the world, the Bosch name stands for innovation, quality and product diversity. At last, microwaves that wont be destined to hide inside a cabinet and warming drawers that dont appear as if they were an afterthought to the rest of the kitchen. Bosch builtin microwaves and warming drawers are the ultimate marriage of stylish form and cooking function. For easy installation, microwaves and warming drawers are available in a variety of configurations and can fit into a single cutout. So you can easily outfit your kitchen to help you perform cooking or warming tasks with ultimate ease and sophistication. Bosch sensor cooking modes measure the amount of humidity in the oven, then automatically adjust cooking time for the type of food being cooked. This standard feature in their builtin microwaves adds a new level of performance and sophistication to your cooking. Actual delivery times will vary based on your location. If you are ordering multiple items and not all items qualify for Quick Ship, the order will ship when all items are available to ship. Quick Ship may not apply to multiple quantities of the same product. Please call or contact us for an equivalent model. Challenges include worker quarantines, part supplier delays, slowdowns from routine cleanings and occasionally, weeks of factory closures. Social distancing also limits how

many people can work on the same assembly line, decreasing productivity. Beyond that, staffing is reduced due to some workers need to stay at home as daycare centers are closed. These challenges are unlike anything we've ever seen in our industry. That's simply false.

We place truckload orders for items from the factory just like the box stores. Custom order items like wall ovens and cooktops are much faster from an independent like us. Most builtin appliances ship to us in 35 days. The large retailers can't match our speed. The vast majority of all the product we sell are manufactured in Kentucky, Ohio, Tennessee, Iowa, North Carolina and Wisconsin. Credits are applied to our regular price and are valid 12 months after the expiration of the service plan. Credits are applied to our regular price and are valid for 12 months after the expiration of the service plan. See applicable rebate forms for details. As we have the ability to list over one million items on our website our selection changes all of the time, it is not feasible for a company our size to record and playback the descriptions on every item on our website. However, if you are an American with a disability we are here to help you. Please call our disability services phone line at your local store during regular business hours and one of our kind and friendly personal shoppers will help you navigate through our website, help conduct advanced searches, help you choose the item you are looking for with the specifications you are seeking, read you the specifications of any item and consult with you about the products themselves. There is no charge for the help of this personal shopper for any American with a disability. Finally, your personal shopper will explain our Privacy Policy and Terms of Service, and help you place an order if you so desire.
